(2020) **Announcement for COPD and Lungs Conference 2020 Chron Obstruct Pulmon Dis 5.2**

Hilaris Conferences is organizing “ COPD and Lungs 2020 ” which is going to be held during October 07-08, 2020 at New York, USA. The theme of the conference is “Novel insights and therapeutic strategies on lung cancer and COPD ” . The conference will cover the fields related to COPD and lungs, its complication and the management.

Conference Highlights

The event provides an opportunity to meet world ' s best pulmonology experts presenting their talks on the following highlights which include asthma and COPD, lung cancer, chronic obstructive pulmonary disease, stages of asthma, epidemiology of COPD, etc.

The conference will witness the speaker who enlightens the crowd with their knowledge and confabulated on various new- fangled topics related to the field pulmonology.

COPD and Lungs 2020 will give a best platform for all the Pulmonologists, Doctors, research scholars, students, professors who are working in the field of COPD. COPD and Lungs 2020 encourage submissions from researchers based in USA, Europe and Asian countries. It also helps in exchanging their knowledge projects with each other to increase effectiveness and quality of the conference. Provides a platform that helps authors to share their knowledge with a wider audience, and sustains a rapid process for submissions resulting in high quality publications.

Scope and Importance

Pulmonary health has particular interest and awareness is increasing every year regarding changes in respiratory care every year. COPD & Lungs 2020 encourages abstract submissions from researchers across the globe. The major challenges in the field of pulmonology are to evaluate current promising interventions, and also address the emerging issues in the pulmonology field. COPD & Lungs 2020 provides a

platform that helps researchers and authors share their knowledge with a wider audience. Our audience is global and we intend to share research results in COPD from all parts of the world.

The challenge of the field is to evaluate current promising interventions rigorously, address emerging issues such as synthesizing ever-increasing research findings, and develop innovative dissemination and communication strategies.

The event provides an opportunity to meet world ' s prominent Pulmonologists, surgeons and the presenters present their talks on the on the following highlights Lung Diseases, Lung Transplantation, Respiratory Infections, Asthma and allergy, Pathogenesis of COPD,CO-Morbidities in COPD,COPD Exacerbations, Epidemiology of COPD, Prevention of COPD

- Our meeting gives the best platform for Global business and networking opportunities
- Best poster & Young Research Forum awards are given at our conference

Target Audience

- Pulmonologists
- Students
- Pediatric Pulmonologists
- Physicians
- Professors
- Academicians
- Research Scholars
- Medical Devices Companies
- Software Developing Companies
